

Hotel

Planning and installation of system components on the building site

Reference

Hotel, Reichenstein castle

Customer

Burg Reichenstein GmbH & Co. KG

Location

Trechtingshausen, Germany

Year

2016

Project type
New build

Construction of 24 new rooms.

The bathroom design is a little nostalgic.
This is emphasised, among other things, by the
choice of tiles and the other furnishing details.

Architect Ingenieurbüro Martin, Gelhausen

Customer Burg Reichenstein GmbH & Co. KG

Brief description

Discover the history of the castle

Walk in the footsteps of the Kirsch-Puricelli barons and experience life in a castle from the early modern era to today. Music room, private chambers, ancestral portrait gallery, library – take in the individual, fully furnished rooms.

Furniture from the time of Ludwig XV, wineglasses from Roman times and baroque sculptures are all a testament to the luxurious lifestyle in the castle during those days, and give an impression of the style of living at the time. Enjoy the glorious view of the Rhine from the colonnade between the battlements atop the castle.

The collection in the Reichenstein museum is an important part of German history and Rhineland culture.
